Adjusts automatically to varying water pressure
Automatic warmer shut-off
Electronic diagnostics and built-in tank drain make service easier
For high lime areas, BrewLOGIC® technology calculates flow rate and adjusts brew time to maintain consistent pot levels
Large 200oz. (5.9L) tank provides back-to-back brewing capacity
Ensure coffee quality with programming for brew level, cold brew lock-out and tank temperature, set easily from the front of the machine
Brews 1/2gal or 1gal (1.9 and 3.8L) batches into 1.5 GPR portable server (server included)
Gourmet funnel allows use of heavier throw weights of coffee
Hot water faucet does not affect brew level
SplashGard® funnel deflects hot liquids away from the hand
Coffee extraction controlled with programmable pre-infusion, pulse brew and digital temperature precision
Energy-saver mode reduces tank temperature during idle periods
PROP 65 Warning Decal included in packaging with equipment

*When a BUNN is machine rated 120/208-240V, 120/208V or 120/240V, the higher voltage is the supply voltage needed to power the machine. The 120V is there to supply power to some components rated 120V in the machine, but it is not the supply voltage and would not power the machine if the machine is marked with the before mentioned ratings.

Additional Features

- Smart Funnel Compatible
- BrewWISE
