AXIOM 4/2 TWIN (4U/2L Warmers)

- Adjusts automatically to varying water pressure
- Automatic warmer shut-off
- For high lime areas, BrewLOGIC® technology calculates flow rate and adjusts brew time to maintain consistent pot levels
- Electronic diagnostics and built-in tank drain make service easier
- Large 200oz. (5.9L) tank provides back-to-back brewing capacity
- Ensure coffee quality with programming for brew level, cold brew lock-out and tank temperature, set easily from the front of the machine
- Coffee extraction controlled with programmable pre-infusion, pulse brew and digital temperature precision
- All stainless steel construction
- Energy-saver mode reduces tank temperature during idle periods
- Hot water faucet
- SplashGard® funnels deflect hot liquids away from the hand
- Six individually controlled warming stations
- Twin brew head system
- PROP 65 Warning Decal included in packaging with equipment
- Servers not included unless otherwise noted

</table>

*When a BUNN is machine rated 120/208-240V, 120/208V or 120/240V, the higher voltage is the supply voltage needed to power the machine. The 120V is there to supply power to some components rated 120V in the machine, but it is not the supply voltage and would not power the machine if the machine is marked with the before mentioned ratings.
