ICB TWIN TF 1.0 Gal PE, 120/240V SST

- Intuitive 4.3” touchscreen with user interface provides an enhanced experience when operating and programming the brewers
- SmartWAVE sprayhead technology creates an industry best uniformity of extraction for exceptionally smooth tasting coffee
- Platinum Edition SmartWave technology delivers a timed air purge at the end of the brew cycle, removing residual water from the sprayhead, reducing lime build up and ultimately extending the life of the equipment
- The ICB Twin Infusion Series coffee brewer delivers twice the brew capacity, from a single platform
- Multiple recipes from one footprint --- with six brew buttons and three batch sizes
- Large 5.6 gallon (21.2L) tank provides back-to-back brewing capacity
- USB port for easy programming
- Digital readout displays in English, Spanish, or French ---for easier programming and control
- Energy-saver mode reduces tank temperature during idle periods
- Electronic funnel lock prevents removal of each brew funnel until drip- through is complete
- ICB Twin TF 54200.0100 is compatible with new TF 1.0-gallon Baseless ThermoFresh® Servers, all previous generations of TF 1.0-gallon Baseless TF Servers, and Airpots
- PROP 65 Warning Decal included in packaging with equipment
- Servers not included unless otherwise noted

*When a BUNN is machine rated 120/208-240V, 120/208V or 120/240V, the higher voltage is the supply voltage needed to power the machine. The 120V is there to supply power to some components rated 120V in the machine, but it is not the supply voltage and would not power the machine if the machine is marked with the before mentioned ratings.
