ICB TWIN TF 1.5 Gal PE, 120/240V SST

Intuitive 4.3” touchscreen with user interface provides an enhanced experience when operating and programming the brewers

SmartWAVE sprayhead technology creates an industry best uniformity of extraction for exceptionally smooth tasting coffee

Platinum Edition SmartWave technology delivers a timed air purge at the end of the brew cycle, removing residual water from the sprayhead, reducing lime build up and ultimately extending the life of the equipment

The ICB Twin Infusion Series coffee brewer delivers twice the brew capacity, from a single platform

Multiple recipes from one footprint --- with six brew buttons and three batch sizes

Large 5.6 gallon (21.2L) tank provides back-to-back brewing capacity

USB port for easy programming

Digital readout displays in English, Spanish, or French --- for easier programming and control

Energy-saver mode reduces tank temperature during idle periods

Electronic funnel lock prevents removal of each brew funnel until drip-through is complete

ICB TF 54200.0101 is compatible with new TF 1.5-gallon ThermoFresh® Servers (with Base), all previous generations of TF 1.5-gallon TF Servers (with Base), Titan® 1.5-gallon servers, and Airpots

PROF 65 Warning Decal included in packaging with equipment

Server(s) sold separately

Specifications

Product #: 54200.0101

Water Access: Plumbed

Interface: Wireless

Finish: Stainless

---

Additional Features

Funnel: Smart Funnel

Faucet: Lower

Legs: 4” Satin Nickel Legs

---

*When a BUNN is machine rated 120/208-240V, 120/208V or 120/240V, the higher voltage is the supply voltage needed to power the machine. The 120V is there to supply power to some components rated 120V in the machine, but it is not the supply voltage and would not power the machine if the machine is marked with the before mentioned ratings.
