ICB Twin SH, Black and Stainless

- Digital readout displays in English, Spanish, or French --- for easier programming and control --- and can show either 'Standard' or Metric measurements. Digital readout also shows machine status, and targeted advertising messages can be programmed for display.
- BUNN Infusion Series technology allows for multiple recipes from one footprint --- with six brew buttons and three batch sizes
- Energy-saver mode reduces tank temperature during idle periods
- Exclusive Peak Extraction™ Sprayhead is multi-directional with a 17-hole design to ensure uniformity of extraction
- Electronic funnel lock prevents removal of each brew funnel until drip-through is complete
- USB programming capable
- Brew counter keeps track of how many batches are brewed
- Pre-infusion and pulse brew for maximum flavor extraction. Cold brew lockout & digital temperature control further ensure top-notch brewing.
- New Soft Heat® servers [sold separately] are ergonomic, lighter weight, energy efficient and now offer programmable recipe/batch based holding times and temperatures, alerting staff when freshness has expired or server is empty
- PROP 65 Warning Decal included in packaging with equipment
- Servers not included unless otherwise noted

*When a BUNN is machine rated 120/208-240V, 120/208V or 120/240V, the higher voltage is the supply voltage needed to power the machine. The 120V is there to supply power to some components rated 120V in the machine, but it is not the supply voltage and would not power the machine if the machine is marked with the before mentioned ratings.
