**SINGLE GPR 120/240V**

- Each 1.5GPR portable server (included) has a Safety-Fresh® brew-through lid with vapor seal and spill protection
- Adjustable bypass ensures perfect coffee regardless of batch size
- Brews 1/2, 1 or 1 1/2gal (1.9, 3.8 or 5.7L) batches
- SplashGard® funnel deflects hot liquids away from the hand

---

**Specifications**

- **Product #**: 23050.0011
- **Funnel**: Stainless Steel
- **Faucet**: Upper
- **Water Access**: Plumbed
- **Interface**: Cabled
- **Finish**: Stainless

*When a BUNN is machine rated 120/208-240V, 120/208V or 120/240V, the higher voltage is the supply voltage needed to power the machine. The 120V is there to supply power to some components rated 120V in the machine, but it is not the supply voltage and would not power the machine if the machine is marked with the before mentioned ratings.
