ICB-DV

- Sleek modernized design language, with rounded angles on the corners and trunk
- Digital readout displays in English, Spanish, or French — for easier programming and control — and can show either 'Standard' or Metric measurements. Digital readout also shows machine status, and targeted advertising messages can be programmed for display.
- BUNN Infusion Series technology allows for multiple recipes from one footprint — with three brew buttons and two batch sizes
- Energy-saver mode reduces tank temperature during idle periods
- Exclusive Peak Extraction™ Sprayhead is multi-directional with a 17-hole design to ensure ultimate uniformity of extraction
- Electronic funnel lock prevents removal of each brew funnel until drip-through is complete
- USB programming capable
- Brew counter keeps track of how many batches are brewed
- Pre-infusion and pulse brew for maximum flavor extraction. Cold brew lockout & digital temperature control further ensure top-notch brewing.
- Hot water faucet (supplied for custom installation)
- Dual voltage adaptable (Can operate at 120V/15 amp or 120/208-240V/20 amp)
- Servers not included unless otherwise noted

Agency:

Specifications

- **Product #:** 53100.0100
- **Funnel:** Black Plastic
- **Water Access:** Plumbed
- **Interface:** Wireless
- **Finish:** Stainless

Additional Features

BrewWISE

*When a BUNN is machine rated 120/208-240V, 120/208V or 120/240V, the higher voltage is the supply voltage needed to power the machine. The 120V is there to supply power to some components rated 120V in the machine, but it is not the supply voltage and would not power the machine if the machine is marked with the before mentioned ratings.
