Ultra®-2 BLK/SST Low Level Alert

- Patented beverage monitoring technology and reversing auger design ensure consistent, great tasting frozen beverages
- Two large product hoppers hold 3 gallons (11.4L) each to maximize serving capacity
- User interface communicates need for cleaning and maintenance, and provides simple programming, cleaning and preventive maintenance guides to ensure reliable operation and performance – minimizing down time and maximizing serving capacity and profits
- LED lighted merchandisers in hopper lids bring high visibility to front- of-house applications
- Extended Dispense Handle
- Sanitation listings NSF 18 and NSF 6 (Dairy)
- Low product detect system alerts operators to replenish product
- R452A Refrigerant reduces impact on environment by lowering Global Warming Potential (GWP)

Specifications

- Product #: 34000.0599
- Hoppers: Two
- Refrigerant: R452A
- Dispense: Pull & Hold
- Handle: Extended Handle

*When a BUNN is machine rated 120/208-240V, 120/208V or 120/240V, the higher voltage is the supply voltage needed to power the machine. The 120V is there to supply power to some components rated 120V in the machine, but it is not the supply voltage and would not power the machine if the machine is marked with the before mentioned ratings.
